

The background of the image is a close-up, high-angle shot of a lush, green grass field. The grass blades are numerous, thin, and pointed, creating a dense, textured pattern across the entire frame. The lighting is bright, highlighting the vibrant green color of the leaves.

Touching Grass Detector

Touch Grass

is a popular online meme and alternative way of telling someone to "go outside", implying they're spending too much time online and it's affecting their wellbeing. The exact origin of the phrase is unknown, but it started spreading significantly in 2019, becoming increasingly popular on Twitter throughout 2021.
